### ABOUT ME

Full Stack Developer passionate about building meaningful digital products and continuously growing through real-world challenges. Skilled in the MERN stack, Next.js, TypeScript, SpringBoot, React Native, Mysql, MongoDB, and PostgreSQL, with a strong eye for both frontend and backend development. Known for creative problem-solving, perseverance, and a deep hunger to learn from the best. Also experienced in graphic design and UI/UX, bringing both functionality and visual polish to every project.

## JOB EXPERIENCE

### SOFTWARE ENGINEERING INTERN

MTN RWANDA

AUG 2025 - PRESENT

Developing a USSD app with Java (Spring Boot) and web tools for testing. Collaborating on backend integration with PostgreSQL/MySQL.

### SOFTWARE DEVELOPER PART-TIME

Anchor Finance

DEC 2024 - PRESENT

Led the development of a full-stack loan management system using the MERN stack. Built and maintained key features including loan workflows, user authentication, role-based access control, and activity logging. Focused on delivering secure, scalable, and user-friendly financial software.

### JUNIOR DEVELOPER INTERN

SPIDERBIT

MAY 2024 - DEC 2024

Contributed to web development projects using React and PHP, collaborated with senior developers on UI implementation and bug fixing, and gained hands-on experience in building responsive, real-world applications.

## EDUCATION

### BACHELOR IN SOFTWARE ENGINEERING

AFRICAN LEADERSHIP UNIVERSITY 2024 - 2027

Pursuing a degree specializing in full stack development, with a comprehensive curriculum covering both front-end and back-end technologies. Started in 2024 and will complete the program in the same year, gaining expertise in modern software engineering practices and development frameworks.

### SOFTWARE DEVELOPMENT

SOS TECHNICAL HIGH SCHOOL

2020 - 2023

Provides foundational skills in software development and graphic design, including mastery of Adobe Photoshop, Illustrator, and Premiere Pro, as well as HTML, CSS, JavaScript, SQL databases, and problem-solving techniques.
